

To whom it may concern,

I would like to send a brief comment detailing the value that stations like KLOVE bring to our community and family.

1) KLOVE is an integral part of our community. It provides positive and encouraging music, local community news, and spiritual information. All of these items help me as a parent and a listener. My children also love the station and I feel very blessed to have a station like KLOVE helping me every day. It is comforting to know my children are listening to positive clean music rather than the other types of music available. We have supported the radio station since it became available and we would be very upset if it were to go away. With all of the negative in our lives, KLOVE is a bright light.

2) If KLOVE were to go away, there would be a large void in our community. They support local charities like COMPA foods and the Denver Rescue mission. They also broadcast community Christian events, so their listeners can participate in their community.

3) Every day that I listen to KLOVE I hear stories of the many lives this station has touched. It helps people by playing positive and encouraging music, introducing the listeners to the new artists that are available in Christian Music and informs listeners how to get help in various ways. It is so wonderful to have a commercial free station on the FM dial. I tell people about KLOVE all the time and I continually get positive feedback from them about how KLOVE has changed their lives for the better. I believe KLOVE helps the community by providing a daily source of positive in a world full of negative.

Thank you for taking my comment. Please feel free to call if you have any questions regarding this information.

Sincerely,
Madeline Stephens
